

The Best SIPP Pension Transfer Form

Please complete this form if you are transferring another pension into the Best SIPP. It should be submitted along with a Bestinvest SIPP Application Form.

You can transfer most pension schemes to the Best SIPP, although if you are transferring a pension related to 'Safeguarded Benefits' you must receive a positive recommendation from an FCA authorised financial adviser to allow the transfer of those benefits.

'Safeguarded Benefits' are pension scheme benefits that are not money purchase or cash balance benefits and include defined benefits/final salary benefits and guaranteed pensions including guaranteed minimum pension (GMPs) and guaranteed annuity rates (GARs).

If you are transferring your existing pension as cash we will not automatically invest cash received as part of a transfer. You should choose your new investments once the cash has been paid into your SIPP Account following receipt from your current provider. You can check your cash balance at any time by going to our the **Bestinvest Online Investment Service**, we will send you an email letting you know how to set up your password and log in to your account.

You need to complete a Pension Transfer Form for each pension scheme you wish to transfer. Please photocopy or print extra copies of this form if necessary. The minimum combined value of all your pension transfers, together with any new contributions to the Best SIPP, is £10,000.

If you are not taking regulated financial advice, we strongly recommend that you book an appointment with Pension Wise to discuss the options available to you. The appointment will take between 45-60 minutes and can be over the telephone or somewhere local to you.

You have chosen to undertake this pension transfer on an Execution Only basis. This means;

- you have not asked for or received advice;
- it is your decision alone to proceed with the transfer; and
- Bestinvest is not taking any responsibility for whether the transaction is suitable for you

Before you consider transferring your pension you should be aware of the implications this may have. We have therefore produced the following notes to help you decide if this is the right decision for you. We reserve the right to decline or to consult with you further about pension transfer instructions where it is advised of information that might indicate the transfer may not be in your interests (for instance, if we are made aware that the existing pension contains benefits that might be lost on transfer) although, as noted above, as this is an execution only transaction the responsibility for the suitability of the transaction is yours alone.

You may ring us for guidance on general pension issues if you are unsure of any technical matter either in this note or elsewhere. If you consider you would benefit from specialist pension transfer advice, specific to your circumstances, please contact us for more details.

Costs

Is the new plan more expensive than your current plan? Does your current plan provider impose any exit penalties or charges if you transfer or cease contributions?

The benefits of your new pension arrangements and service should outweigh any increase in cost to you or be worth the fees/penalties incurred. You should ensure that the transfer is going to benefit you financially.

Guaranteed Annuity Rates

Does your existing pension plan provide an entitlement to a Guaranteed Annuity Rate or a Guaranteed Investment Return?

Although rare, some pensions have inbuilt guarantees of investment growth or annuity rates. These guarantees could be lost on transfer.

With Profits

Has your current pension exposure to a With Profits fund?

You may have attractive bonus rates that could be lost on transfer. Moreover, the transfer value of With Profits funds may be subject to something called Market Value Reduction, which will reduce the size of your pension fund.

Other Benefits

Does your existing pension scheme provide life assurance, waiver of premium (a form of premium insurance) or the option of an early retirement age?

The SIPP available with our Online Investment Service does not offer these benefits. Any deterioration in your health since these additional benefits were provided may mean that replacement cover will be more expensive or difficult to obtain once you leave your existing scheme.

Final Salary Pensions Schemes (Defined Benefit), Section 32 Policies And Other Occupational Pension Schemes

Do you have a Final Salary Pension Scheme or a Section 32 policy?

It is generally not advisable to transfer benefits built up in a Final Salary Pension Scheme or Section 32 policy and we will not accept these pension transfers on an Execution Only basis. Other Occupational pension schemes (including Executive Pension Plans) should be similarly checked carefully to ensure that valuable benefits are not being lost. In particular, you should check the amount of tax-free cash your current pension allows you to take.

Approaching Retirement

Will the length of time your fund is invested offset any cost or lost benefits?

If you are close to retirement it may not be worth considering a transfer.

Transfer Timings

During the pension transfer period you may be exposed to fluctuations in the value of your pension due to market volatility.

Pension transfers can sometimes take a while to complete. There may be significant changes in market prices during this period which will not be reflected in your pension value, in particular you will not benefit from any rise in markets whilst your pension fund is not invested.

This list covers some of the main considerations but is not exhaustive. Your decision will depend on your personal circumstances and objectives, and the characteristics of your current pension plan. Your current plan provider/administrator will be able to provide information about your current pension plan. The FCA provides information about pension transfers at www.moneymadeclear.fca.gov.uk
